

# **TIFAC-CORE NIT Hamirpur (HP)**

## **NOTICE for ALUMNI**

This notice is for the information of the passed out ALUMINI that **TIFAC-CORE Centre**, NIT Hamirpur has created a state of ART facility to monitor the health condition of in service electrical equipments such as power transformers, generators, bushings, instrument transformers, lightening arrestors which exist in the substations of various electric utilities. This facility has been created by the financial support from Technology Information and Forecasting Assessment Council NEW Delhi, Himachal Pradesh State Electricity Board and MHRD new Delhi through NIT Hamirpur. The development of this centre has been monitored by a national level committee “REACH Monitoring Committee” (RMC) of subject experts from industry and academia of international repute. The RMC has desired that business venture may be created by senior UG students. Since there is no encouraging response from senior UG students therefore this opportunity is open for NITH ALUMNI. Those alumni who are interested to create a business venture and take control of this venture will have to prepare business plan and sign an MOU with NIT Hamirpur. The Alumni are encouraged to come forward for this purpose and are free to contact Dr Ram Naresh Sharma, Prof EED NIT Hamirpur. (Mobile 09418371444). The offer is open upto 04-02-2011.
