

### Expert views about National Institute of Technology Hamirpur

<b>Event's Name/Expert Lecture and Dates</b>	<b>Expert Photograph</b>	<b>Expert's views about the Institute</b>
One day National Workshop on "Reimagining Education in the Light of NEP- 2020" in view of the implementation of National Education Policy 2020 organised on April 20, 2023.		On the invitation by the Department of Physics and Photonics, NIT Hamirpur, I visited the institute during April 19-21, 2024, to deliver talks in the National Workshop on "Reimagining Education in the light of NEP-2020." During this visit, I closely interacted with the faculty members, institute authorities and students. I found the teaching halls, laboratories and even the guest house very impressive. Dedication of faculty members and enthusiasm of students for learning left a lasting impact on me.
Organising Department/Centre/Section/ Society: Department of Physics & Photonics Science, NIT Hamirpur and Indian Association of Physics Teachers	<b>Expert Name:</b> Prof. B.N. Jagatap	
Co-ordinator/Organising Secretary: Dr. Kuldeep Kumar Sharma	<b>Designation and Affiliation:</b> Formerly, Distinguished Scientist and Director
